### ACKNOWLEDGEMENT

Acknowledgement and appreciation is extended to everyone who participated in the preparation of this Annual Report and Budget and particularly to the Department Personnel who supplied essential information. The cooperation and support by the entire Municipal Organization throughout the year is a continuing activity that makes possible a Report such as this. Particular appreciation is extended to Ken Larrivee and Mrs. Marguerite Collins for their untiring efforts in the preparation of this report.

James A. McSweeney  
City Manager

The first of these is the question of the origin of the human race. It is generally accepted that the human race originated in Africa, and that it spread from there to other parts of the world. The second question is the question of the development of the human race. It is generally accepted that the human race has developed from a common ancestor, and that it has evolved over time. The third question is the question of the relationship between the human race and other races. It is generally accepted that the human race is a single race, and that it is related to other races.

THE HUMAN RACE

The human race is a single race, and it is related to other races. It is generally accepted that the human race originated in Africa, and that it spread from there to other parts of the world. It is also generally accepted that the human race has developed from a common ancestor, and that it has evolved over time.

THE DEVELOPMENT OF THE HUMAN RACE

The human race has developed from a common ancestor, and it has evolved over time. It is generally accepted that the human race originated in Africa, and that it spread from there to other parts of the world. It is also generally accepted that the human race has developed from a common ancestor, and that it has evolved over time. The human race is a single race, and it is related to other races. It is generally accepted that the human race originated in Africa, and that it spread from there to other parts of the world. It is also generally accepted that the human race has developed from a common ancestor, and that it has evolved over time.

## MAYOR'S INAUGURAL ADDRESS

January 3, 1972

FELLOW CITIZENS AND FRIENDS:

Every successful candidate appreciates the support he receives. In my case, it's a very special feeling for since the day I first criticized Public Service Company, I have never had the support of the news media of this city. No matter how firmly I may feel that what I have done is sound and right, it would be impossible to continue unless a fair portion of our citizens were willing to vote an approval. It would be helpful if the Council could see fit to support me to the same extent as the voters. It is true that less than 50% of those qualified participated in our last election. Non voters are a completely negative and growing group, common to all communities and are today democracy's greatest liability.

As a community, we have a right to be proud and thankful for the accomplishments of the past two years. Most outstanding has been the improvement of our industrial picture. Sierra Knits on Willow Hill is an entirely new industry. A major portion of Sulloway Mills has been taken over by an aggressive and successful new concern headed by Mr. Thayer, who promises added employment in the vicinity of 100. Recently the Acme Staple factory has been purchased by a new and progressive concern. They intend an eventual expansion of both employment and products. Add to this the continued growth of Webster Valve, and the planned substantial expansion of Atlantic Laminates, and it's fair to say that no community in New Hampshire has done better in this field.

The zoning ordinance has been passed. It is now up to the Council to appoint a qualified Board of Adjustment to make it work. This

development is the most important protection of our home owners and the economic development of our City made in this century. We are deeply indebted to Roger Pouliot and the Planning Board. No one, except members of the committee, knows of the hours and hours of time and deliberation which went into producing the ordinance now on the books. They will never receive suitable recognition. I regret that his own affairs were such that Mr. Pouliot felt he could not continue on that Board. As long as I am Mayor, if he should ever seek to return, I will guarantee him the first available appointment.

Under our City Manager, we have had purely nominal increases in the tax rate. They actually would have been non-existent except for the inflationary era of which we are the victims, the repudiation by the state of its obligation under foundation aid for the schools, and the curtailed reimbursement for the loss of the stock in trade tax. To this they are now compounding the felony by mandatory programs, the costs of which are borne almost 100% by local towns and cities.

One field in which the Council has never supported me is an attempt to hold the schools down to funds which would compel them to forego further expansion of their multiple and expensive programs. I note that last year, in spite of a budget cut slightly beyond what they stated they could live with, they have expanded athletics to the Junior High, Paul Smith and Bessie Rowell Schools, and individual instruction has been extended to all pupils. I assume there have been other expansions. I do not say that this is not an improvement, but the expenses of our schools today are beyond our home owners' capacity to pay. This year, although they twice requested deficit appropriations, the schools ended up with a surplus of \$18,000. Certainly they are to be commended on this, but it does indicate that they scream for money a long while before they

are hurt. They must realize for their own good, that "more money" is no longer an available solution of their problems.

We have now completed our first year under the City Manager. His accomplishments have been many, not the least of which is that to date he and I have never had a disagreement. Some would unkindly say that this was almost beyond the realm of imagination. The credit has to go to Jim. It pleases me that in spite of our agreement, there seems to be almost universal feeling, both by friends and enemies of the system, that we could not have done better in our selection of a manager. Franklin has had its first brush with the federal government. There are many more to come. We will proceed with sewers providing 90% reimbursement is assured and the plans are sound. Rochester is now being sued for \$2,500,000. because its original sewer plans were in error. A court recovery is not covered under the Federal reimbursement clauses.

We should be grateful to Mr. McSweeney for the half a million plus which we have now been assured for the water project on Prospect Hill. In less than a week he disposed of Federal red tape and forms a foot deep. Normally six months would have been par for the course. Perhaps the biggest tribute of all for Mr. McSweeney, in view of our industrial improvement, is to compare it with Concord which spends \$30,000. a year, including \$16,000. annually for an industrial agent. So far as I know, in spite of this direct expenditure, they have shown no progress in the past two years. Jim has earned his entire salary in the field of industrial development alone.

Today there is a national and state revolution against the arrogant spending of many educators. In Franklin, schools take sixty-five cents plus of our tax dollar. Either school superintendents and their completely subservient school boards see the writing on the wall and

voluntarily cut back expenditure or an unreasoning public will do irreparable damage to the educational system.

Our most dangerous enemies are the state and federal governments. With wild abandon they foist one program after another on us and demand that we bear the full cost of its operation and a major portion of initial expenditure. Unless a program is good enough to be fully financed by the state or federal government, they have no right to force it on us.

A few examples of this trend toward compulsory municipal bankruptcy are the ambulance bill, limitation on open dumps, sewage, mental health, multiple educational requirements, and loss of revenue through elimination of the stock in trade tax and constantly expanding tax exemptions. I do not for one moment say that the ultimate end of most of these programs is not sound but only that once the municipal cow is dry there is no use demanding more milk for the calf. Only a solvent town can remain free. It is time that the state and federal government, as well as we ourselves, recognize our financial limitations. It is tragic that because there is no limit to funds for the destruction of Asia, Washington has almost nothing for the solution of domestic problems.

Thank you all for coming tonight. I promise the best that God gave me in the service of this fine City. In summary, what I always strive to accomplish for Franklin is more home owners with good jobs, financial security and well, but not extravagantly educated, children. No single man can do that, but with reasonable understanding and assistance from the all too small group of citizens really interested and willing to help, progress will be made in the right direction.

# CITY OF FRANKLIN

Office of the City Manager

1972 - 73

## GENERAL REPORT

### What Does Municipal Government Cost You?

Sometimes it is interesting to take a different look at Municipal Government and how the cost directly effects the taxpayer. With the system of taxation we have today, the only real place a person has left to complain about taxes is City Hall. Where can you go to complain about high State or Federal taxes, and be heard? If you stop and think about it, in most cases, a person pays more Social Security - State Taxes - Federal Income Taxes, or has, at some time in his life on a separate basis, than he does in total property taxes. However, these taxes, other than Municipal, are deducted from your weekly paycheck or are hidden in the items that you purchase. It doesn't hurt as much as when you get your lump-sum property tax bill just before Christmas each year.

Let us take a quick look at the services that the City of Franklin provides and what it costs on a per capita basis. At this point, let us assume a population of 7,500. We won't apply any revenues because the revenues we receive from State and Federal sources were originally your monies anyway:

General Government & Debt Service: The total budget for 1972 was \$322,295. This amounts to about \$43.00 per person. General Government and Debt Service breaks down to City Clerk; Tax Collector; Fixed Charges, such as, bonds, taxes and insurances; Legal and Planning Departments; Assessor's Office; Manager's Office; and Veterans' Exemptions. Of the \$43.00 per

person mentioned a little while ago, \$30.80 is needed to pay for Fixed Charges.

The City Clerk, Treasurer and Tax Collector's Offices cost each person approximately \$5.00 per year, which, incidentally, includes the Mayor and Councilmen's salaries. The ever-popular Assessor's Office's per capita cost is \$1.60; the Manager's Office, \$2.60. Pay Increases for 1972 amounted to about \$1.60 per capita and the balance of \$1.40 per person was distributed between the Legal, Planning & Zoning Departments.

Let us take a look at some of the major cost departments. Our Welfare cost per person last year was \$7.15, whereas our Health Department cost, which includes the Visiting Nurse Association, was 98¢. The cost to each person for our Fire Department was \$10.40 and the Police Department & Dog Control amounted to \$13.00 per person. This approximates about \$31.75 per person for the entire Public Safety and Welfare program.

What about our cost in the Public Works Department? Our total budget for Public Works in 1972 was \$188,000, including everything from Administration to Town Road Aid. Our cost here is about \$25.10 per person. Let us break this down a little bit:

Street Maintenance (not including Resurfacing)	\$4.75
Snow Removal	4.05
Street Lights	2.95
Rubbish Removal	2.70
City Garage (equipment, maintenance, etc.)	4.45
Administrative & Memorial Hall operation	2.70
Tree Removal & Street Cleaning	.95
Town Road Aid-Bridges-Sidewalk Repairs	1.05
Sewer Repairs	1.50

Referring to our Parks & Recreation Department, you hear the pros and cons daily. The cost is too high or we are not spending enough on

recreation. Our per capita cost for 1972 was \$3.85 for our municipal recreation budget! The Public Library per capita cost was approximately \$3.20 per person.

County Government cost per capita was \$10.45

Per Capita cost for operating our Schools was approximately \$186.00

From the figures previously cited it shouldn't be too difficult to see that most of the Municipal services that you receive and pay for through your local taxes do not even amount to your monthly utility bills or the amount that you may spend monthly on entertainment.

Where do we go from here? Are taxes too high? Do we want more services? In my opinion, there are few avenues left to stabilize the local tax rates. It is my feeling, and I quote from last year's Annual City Report:

"If local government could get adequate authority to raise their own revenue, they could free themselves very quickly from the manipulation by the States and there is every reason to think that they would. They are close to the every-day problems and, thus, close to the people. Local officials everywhere cooperate every day on many problems; one suspects that, if they were united, local governments might even reorganize themselves into functional and functioning bodies. Some such reorganization would be worth trying. Without it, every Federal Program will probably be waste, or worse, and the decay of authority of all government will continue." (1)

Let there be no doubt about it. When a dollar leaves the community, goes to the State and/or Federal Governments, then returns to the

(1) City of Franklin Annual Report-1971-Page 8

community under the guise of State or Federal aid, you are lucky to receive pennies on that dollar. Remember; the State or Federal Aid that you get back has been recycled, after being polluted and diluted, then awarded with much pomp and ceremony, as a grant, with a book of restrictions on its use that would befuddle any mind.

To provide better services and to make the best use of our tax dollar before it leaves the community, our State and Federal Administrations must realize that the tax dollar can best be spent at the local level.

"Local government-home rule - is the very foundation of our nation. We are not ready to give it up or let it go for lack of support. We are all keenly aware of the larger and larger "bite" that the Federal government, particularly, takes from us each succeeding year. The more the Federal and State governments take, the less is available to sustain local government". (2)

This year we will experience our first taste of Revenue Sharing. In 1973, we will receive some \$250,000 of our dollars back to apply to municipal use. In subsequent years, this amount will level off to approximately \$145,000. Once the total monies to be raised by taxes exceeds \$145,000 over present spending levels, property taxes will go up. Revenue Sharing may be good, but to say, without reservation, that property taxes will go down as a result, may be completely false. It appears now, that communities may be forced to spend this money over and above their normal spending or else experience a loss of revenue in future years.

(2) Ibid, Page 2

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the transparency and accountability of the organization. This section also outlines the various methods used to collect and analyze data, ensuring that the information is reliable and up-to-date.

2. The second part of the document focuses on the financial aspects of the organization. It provides a detailed overview of the budget, including the projected income and expenses for the upcoming year. This section also discusses the various financial risks and how they are being managed to ensure the organization's financial stability.

3. The third part of the document addresses the operational aspects of the organization. It describes the various processes and procedures that are in place to ensure the efficient and effective delivery of services. This section also discusses the various challenges that the organization is facing and how they are being addressed.

4. The fourth part of the document discusses the human resources aspect of the organization. It provides an overview of the current staff levels and the various roles and responsibilities of the different departments. This section also discusses the various training and development programs that are in place to ensure that the staff is equipped with the necessary skills and knowledge to perform their duties effectively.

5. The fifth part of the document discusses the legal and regulatory aspects of the organization. It provides an overview of the various laws and regulations that the organization is subject to and how they are being complied with. This section also discusses the various legal risks and how they are being managed to ensure the organization's legal compliance.

6. The sixth part of the document discusses the environmental and social aspects of the organization. It provides an overview of the various environmental and social issues that the organization is facing and how they are being addressed. This section also discusses the various initiatives that are in place to promote sustainability and social responsibility.

7. The seventh part of the document discusses the future of the organization. It provides an overview of the various strategic goals and objectives that the organization is pursuing and how they are being implemented. This section also discusses the various challenges that the organization is facing and how they are being addressed to ensure the organization's long-term success.

With good planning, a careful application of these funds, the cooperation of all of our citizens, and foresight on the part of our elected officials, we will make the best use of these funds for the benefit of all taxpayers!

With the cooperation that I have received from the Mayor and the City Council, you can feel assured that your tax dollars have been well spent on the local level. I know this cooperation will continue and thus, your assurance for the future that each dollar that comes to the City in the form of taxes will be spent as if it were part of our own household budget. Thank you.

James A. McSweeney  
City Manager

CITY OF FRANKLIN  
Office of the City Manager  
1973 BUDGET MESSAGE

TO THE HONORABLE MAYOR AND MEMBERS OF THE CITY COUNCIL AND CITIZENS OF THE CITY OF FRANKLIN:

The Annual Report for 1972 and the Budget for 1973 of the City of Franklin, as required by section 19, of the City Charter is submitted herewith. This report represents a detailed picture of the financial transactions from 1970 to 1972 and the projected expenses for 1973.

The format of this year's Budget is similar to that of last year. The intent being to give everyone a complete picture of the financial transactions that have occurred over the past several years. Each department is presented separately with the expenses broken down into individual line items. In some departments, it has been broken down further, into divisions using the line item procedure. This process helps us to control expenditures.

The Report consists of three sections:

Section "A" (Pages 1-91) contains information relative to various Boards & Commissions, the Budget breakdown, consisting of anticipated revenues and expenses and the Budget Summary. It outlines the different Departments as to expenses and their operating budget for 1973. This Section also includes the Water Department account and the Projected Use of Federal Revenue Sharing Funds. The Mayor's message and Manager's remarks, Highlights of 1972 and Goals for 1973 are included in this Section. This year we have also included Analysis of Expenditures for most major departments and divisions. The Water Department audit will be available at a later date.

A special area of interest is added to this year's report and

## 1973 BUDGET MESSAGE (CONT'D)

should be looked at carefully. This is the "Proposed Use of Revenue Sharing" and is found in Section "A". The report outlines the amount of money anticipated to be received, what actually was received to date and how these funds have been applied to the budget and the Capital Improvement program. Your understanding of this Section will assist you in understanding the Budget Summary.

Section "B" (Pages       ) contains the Superintendent's reports, reports of the School Nurse, Cash Receipts and Disbursements reports and other School information for 1972 and 1973.

Section "C" contains the Municipal Calendar for 1973 and part of 1974. This calendar will be helpful to our citizens and employees in noting important dates relative to the operation of the City. Important telephone numbers are listed in this Section also.

Budget Summary: The general City sub-total for 1973 is approximately \$76,465 more than was expended in 1972. This figure, for clarification, does reflect a 1972 appropriation of \$902,550 or a budget figure of \$104,033 less appropriated for 1973 over 1972. After applying projected revenues including Revenue sharing and surplus, the General City total and Capital Improvements in dollars to be raised by taxes is \$187,924. The School Budget, after applying projected revenues, reflects an amount of \$1,317,961 to be raised by taxes for the year 1973, an increase of \$50,857 over 1972. These two figures (General City Sub-total and Schools) give us the total dollar to be raised by taxes for 1973 -- \$1,505,885. This is a total budgetary decrease for municipal government and schools of \$85,752 under that of last year which will amount to approximately \$2.00 less on the tax rate due mostly to Revenue Sharing Funds applied. There can be further anticipated an increase in our valuations which could further reduce our tax rate.

Sincerely,

James A. McSweeney  
City Manager

PROJECTED USE OF FEDERAL REVENUE SHARING

"State & Local Fiscal Assistance Act of 1972"

Total Amount to be Received as Anticipated (12-6-72)

Due to be received for 1972 & 1973 Calendar Years:

December, 1972	\$72,675	Received 12/72 :	\$69,314
January, 1973	72,675	Received 1/73 :	66,514
April, 1973	36,300	Received 4/73 :	40,773
July, 1973	36,300		
October, 1973	36,300		
	<hr/>		
TOTAL	254,250		

The above figures have been rounded off for purposes of estimates.

The following items are proposed to be funded by the above act and are to be applied to the 1973 portion of the City of Franklin's 5-year Capital Improvement Program:

Public Buildings:

- |  |            |
|--|------------|
| 1. Refurbish City Hall (inc. cell block renov.)                                  | \$ 3,000   |

26c. Radio for above vehicle	600
26d. Purchase Small Sidewalk Plow/small Sweeper & Attachments	10,000
27. Expansion of PW Garage for office (20X14 - Estimated cost \$4,500 - Exist. Mun. Funds \$3,000)	1,500
30. Replacement of 2½ ton Dump Truck	7,400
32. Sanitary Landfill as required by law 7/1/73	7,500
35. Bridge Repair and Replacement (Daniell Bridge - State TRA Funds - Municipal Funds \$4,000)	2,000
37a. Heavy Equipment - Grader	20,450
TOTAL DEPARTMENT	(\$68,950)

Water Department:

39. Preparation (final) & Completion of Grid System Map	\$ 2,000
DEPARTMENT TOTAL	(\$2,000)

Industrial Expansion:

40. Construction of Access Road to Industrial Park - Waterlines and other Appurtenances - (Estimated cost \$30,000 - Municipal Share \$11,800 & Water Dept. Share \$11,000)	\$ 7,200
DEPARTMENT TOTAL	(\$ 7,200)

GRAND TOTAL \$119,150

The above proposal commits \$119,150 in Revenue Sharing funds to the 1973 portion of the City's Capital Improvement Program. As has been stated before, it is anticipated that the City of Franklin will receive an estimated total of \$254,250 during our calendar years of 1972 and 1973.

1972 & 1973 Total Revenue Sharing	\$254,250
Amount Applied to Capital Improvement Program	119,150

To be Applied to Municipal Line Item Budgets	\$135,100
--	-----------

With the remaining balance of \$135,100, I would propose that the following amounts be applied directly to the indicated line item budgets:

PROJECTED USE OF FEDERAL REVENUE SHARING FUNDS

Page 3

City Clerk & Treasurer	\$4,675	Manager Dept.	\$ 3,570
City Solicitor	1,190	Welfare Dept.	9,180
City Assessor	2,210	Police Dept.	17,207
Dog Officer	255	Zoning Division	731
Fire Department	14,657	Parks Dept.	6,086
Health Department	1,530	Public Works Dept.	29,107
Library Dept.	4,250	Tax Collection Dept.	1,445
Water Department	19,757		

GRAND TOTAL OF LINE ITEM BUDGET APPLICATIONS \$115,850

The above figures reflect an approximate 15% decrease in all the above-listed departments and I recommend that it be applied to the general operation of the departments, including, but not limited to, salaries.

As proposed, the total amount being applied to Department Line Item budgets plus the Capital Improvement Program is as follows:

<u>Department</u>	<u>Revenue Sharing Funds</u> <u>Line Items</u>	<u>Cap. Imp.</u>	<u>Total</u>
City Clerk, Treasurer	4,675		4,675
Solicitor & Prosecutor	1,190		1,190
City Assessor	2,210	8,000	10,210
Dog Officer	255		255
Fire Department	14,657	22,000	36,657
Health Department	1,530		1,530
Library Department	4,250	500	4,750
Manager's Department	3,570		3,570
Welfare Department	9,180		9,180
Police Department	17,207		17,207
Zoning Division	731		731
Parks & Recreation Dept.	6,086	3,000	9,086
Public Works Department	29,107	68,950	98,057
Tax Collection Dept.	1,445		1,445
Water Department	19,757	2,000	21,757
Industrial Expansion		7,200	7,200
Public Buildings		7,500	7,500
<b>TOTAL</b>	<b>115,850</b>	<b>119,150</b>	<b>235,000</b>

The above figures are adjusted to correspond to the amounts actually being received from Revenue Sharing at the present time. Any further adjustments will be made in the 1974 budget.

James A. McSweeney  
City Manager

1973

CAPITAL IMPROVEMENT PROGRAM

In 1973 it was necessary to re-draft our total picture of the Capital Improvement Program and extend our projects to the year 1976. Here again, the basic purpose is to attempt to average out our costs on an annual basis in order that some equalization in costs of our capital projects can be spread out on an equitable basis rather than to have large sums of money expended in any one given year.

To give a graphic example of the amount of expenditure made applicable to the tax rate for 1973 and the previous two years, the following is submitted:

1971

Total Capital Improvement Expenditures	\$ 60,709.00
Total Capital Improvement Chargeable to Tax Rate	\$ 55,209.00

1972

Total Capital Improvement Expenditures	\$105,600.00
Total Capital Improvement Chargeable to Tax Rate	\$ 62,000.00

1973

Total Capital Improvement Expenditures	\$168,950.00
Total Capital Improvement Chargeable to Tax Rate	\$ 14,800.00

Obviously, by the use of various revenues and other sources of income we have been able to complete many thousands of dollars of work at the least possible expense to the taxpayer. 1973 will, of course, be our big year due to Revenue Sharing Income.

It can be anticipated that Revenue Sharing, over the next several years, will help greatly in stabilizing our cost of the Capital Improvement Program and enhancing our ability to finance projects otherwise economically unfeasible with our present tax burden.

We can look forward to a progressive balanced Capital Improvement Program for many years to come, assuming that Revenue Sharing stays a reality. This program is being continued in an all out effort for the benefit of the community at the least possible expense to the local taxpayer and tax rate.

## REPORT OF THE DIRECTOR

FOR 1972

At the inauguration meeting of the Mayor and City Council on January 3, Mayor Eugene S. Daniell, Jr., nominated Miss Jody Hebert as a member of the Library Board of Trustees and the City Council appointed her. The Library Board of Trustees noted the discrepancy between Miss Hebert's age and the State law regarding eligibility of trustees, but felt that a closer liaison with the younger people of the community should be developed and maintained. Accordingly, it was determined that her title be Associate Trustee and that she have all the privileges and responsibilities of an adult member of the Library Board of Trustees with the exception of the vote. Miss Hebert served with distinction until she matriculated at the University of New Hampshire in September. Her advice and counsel were much appreciated by the Library Board of Trustees, who look forward to the appointment of a new Associate Trustee for the coming year.

In March, carpeting was installed in the stack area by Chertok-Lougee Robinson Co., Inc., of Laconia. The carpeting matches the Mohawk "Presidio" brand of carpeting previously installed in the reading rooms. The difference of 250 dollars between the amount allowed in the budget and the estimate of 1000 dollars from Chertok-Lougee Robinson was taken from the Mildred J. Peaslee Memorial Gift. In June a new gas hot water heater was installed to replace the former one, installed in 1951, that was discovered to be leaking and irreparable. The 150 dollars for the heater and its installation was disbursed from the City Manager's contingency fund. A large and sturdy bicycle rack, obtained from the Recreation Department in exchange for the library's power lawn mower, was placed alongside the front walk of the library.

On April 6, 1972, the State Library Commission voted "to award a Federal Title I grant of fifteen hundred dollars to be administered by the Gordon-Nash Library of New Hampton, to be used for the project entitled 'Live Arts Learning for Children,' in cooperation with Franklin Public Library, Gilford Public Library, Sanbornton Public Library, Meredith Public Library, and Laconia Public Library." The intention of the project is to provide live performances of mime, music, drama, and puppetry to children who nowadays rarely see any performances except audio-visuals. The programs are presented by Project Try (Theatre Resources for Youth) of the University of New Hampshire's Paul Creative Arts Center. Project Try troupe's Little Red Wagon stopped at Odell Park twice during July and once during August; about 60 youngsters attended each performance, and both children and attending adults were enthusiastic. Three more presentations of different types are anticipated during the summer of 1973.

Books circulated at the four city parks were 107 compared to 398 circulated in 1971, and several deliveries were cancelled for lack of interest. This was the first disappointing year in the three years of

## FRANKLIN PUBLIC LIBRARY (CONT'D)

the Parks Reading Program. It is hoped that in 1973 the book deliveries can be coordinated with other activities in the Recreation Program so that children will be alerted to be at the playgrounds at the time of the book deliveries.

Thirty-eight children signed up for the Summer Reading Program compared to sixty-five last year. During both years a number of children did not finish the program, and it is felt by the staff that there are definite benefits to the children who finish. On the whole, however, the 1972 program was successful. Prizes were not given for the most books read, but small prizes were provided for the Treasure Hunt which was a part of the closing festivities.

Miss Suzanne Connor, who did volunteer work one day a week during the summer, was of real assistance. Partly due to her help it was possible to start a long-postponed task: all of the reference collection has been inventoried, and a general inventory has progressed part way through the 300's.

In last year's Annual Report, statistics from the New Hampshire State Library were given concerning the first year of use of the State-wide Card system. For the period July 1, 1970, through June 30, 1971, it appeared that Milford issued 44 cards and circulated 5,399 books; Manchester issued 26 cards and circulated 2,376 books; and Franklin issued 22 cards and circulated 2,140 books. However, statistics released this year by the State Library show only a question mark for last year's statistics for Milford; Franklin was probably exceeded only by Manchester last year. For July 1, 1971, through June 30, 1972, Franklin was definitely second in the State: Manchester issued 52 cards and circulated 3,330 books; Franklin issued 8 cards and circulated 3,099 books and 137 recordings; and Milford issued 82 cards and circulated 2,687 books. The conclusions drawn last year continue to be valid: (1) Franklin Public Library is able to serve the majority of Franklin residents, since they seldom request Statewide Cards, and (2) Franklin Public Library's importance as a Service Center Library is appreciated by residents of surrounding towns, who also take advantage, while they are in the community, of the many other services offered by the City of Franklin.

Outstanding gifts were received from Dr. Eugene E. Pantzer, of New England College (cookbooks); from Mrs. G. Arthur Cooper, of Hill (selections from the personal library of her mother, Mrs. Roy T. Wells); and from Mr. Donald Anderson of Franklin (remainder of his bookstore in Boston).

In September a blue spruce was given by Mr. Thomas Murray in memory of his wife, Mary Langlois Murray. Edmunds' Nurseries moved the yew bush given by Mr. Samuel Carpenter and set the spruce tree in its place near the west rear corner of the library.

On October 24, four candidates for the position of Library Director were interviewed by the Library Board of Trustees. In due time Paul H. Gaboriault, of Ascutney, Vermont, was elected to succeed Hope Swain, who had indicated some months earlier her intention to retire. Gaboriault

FRANKLIN PUBLIC LIBRARY (CONT'D)

was formally appointed by City Manager James A. McSweeney on November 10, and was sworn into office by City Clerk Barbara Lorden on November 14.

On November 17, an Open House was held in the Reading Room from seven to nine P.M. The evening was planned by Mrs. John Keegan, a member of the Friends of the Library, in celebration of National Book Week and also to welcome the new Library Director and his wife and introduce them to the community. Refreshments were donated by the Friends of the Library, who were represented by their president, Mr. Thomas Harvey. Mrs. William Kertland and Mrs. Alonzo Gile poured. City Manager James A. McSweeney, members of the City Council, and sixty other guests attended. On display in the several libraries in Franklin that were antecedent to the Franklin Public Library, which opened in 1907.

Miss Swain's retirement in November ended a long and varied career in library service. An alumna of Simmons College, she received her library training at the Brooklyn, N.Y., Public Library, and served in various capacities in three different branches in that system. In 1946 she returned to her native New Hampshire and became Librarian at the Gordon-Nash Library in New Hampton, serving there for 13 years. She was on the staff of the Laconia Public Library for one and a half years, in charge of the Lakeport Branch Library, before succeeding Miss Mildred J. Peaslee as Librarian at Franklin Public Library on August 1, 1964. On January 3, 1973, at City Hall Auditorium, Hope Swain was honored by the presentation of a plaque inscribed as follows: "In appreciation for your eight years of devoted service to the City of Franklin as Library Director. From the Mayor and City Council, 1972."

Respectfully submitted,

Paul H. Gaboriault  
Director

# FRANKLIN VISITING NURSE ASSOCIATION

## ANNUAL REPORT - 1972

This year the procedures and policies of the agency were expanded to further and better the activities and services in the community.

This Agency, housed in the Goss Wing of the Franklin Regional Hospital, has made many improvements to the physical plant through donations and volunteer hours. Organizations who donated funds to establish an examination room were: The Franklin Rotary Club; the Franklin Kiwanis Club; the Melinda Tobie Trust; and the Franklin Junior Woman's Club. This office location is shared with the Twin Rivers Mental Health Association, the New Hampshire Alcohol and Drug Abuse Clinic, and the Clergy Association.

Volunteer services still portray an important part of the Agency's programs. The willing assistance of the Franklin Junior Woman's Club is outstanding. Members of the Board, and Board members of the Tilton Visiting Nurse Association have been generous of their time at the immunization clinics. We give our thanks not only for these services, but in all other areas where they have been called on to participate. Six immunization clinics were held in the Hospital Conference Room during the months of March, April, May, June, October and December. The October and December clinics were combined with Tilton and Northfield. Dr. Winnifred Chase was the attending physician for five of the clinics, and Dr. Robert Beaudet administered immunizations at one clinic. A total of 760 children attended and 901 immunizations were given. Through the cooperation of the Franklin and Tilton School Nurses, the Tilton Visiting Nurse, the New Hampshire Department of Health, many volunteers, and the staff of this Agency, these immunizations were provided to the children of Franklin, Salisbury, Hill, Northfield and Tilton.

The Agency staff assisted the Franklin School Nurses with the pre-school physical examination program at the VNA offices on May 16, 17, and 18.

Eleven Well-Child Conferences were held at monthly intervals with Dr. Chase as attending physician. Thirty-five families participated. One hundred twenty six children were seen, eighty-nine physical examinations were done and forty-seven immunizations were given. Three referrals were made to other agencies. Three laboratory tests were done at the Franklin Regional Hospital. The success of the Conference was assured by the Volunteer services of the Franklin Junior Woman's Club and Board members who provided registration, transportation and nutrition guidance.

This Agency is looking forward to continued growth and development of the hospital referral program to provide and improve continuity of service includes preventative as well as rehabilitative care to enable the individual to become more self-reliant following discharge from the hospital.

Because our programs are based on nursing service and nursing time means money, our staff has willingly accepted the philosophy for

## ANNUAL REPORT - 2

Collection of fees according to the sliding fee schedule adopted by the Board in December. The staff realizes that their ability to collect fees is determined by their conviction of the value of the services they render to the individual, family, and community; their belief in the value to the patient or family for services received; and their own sense of values. Yet, they are always mindful that service is given according to need and not to the ability to pay.

The number of nursing, physical therapy and social service visits in the community continue to increase due to the constant demand for skilled services:

Skilled Nursing Care Visits.....	1407
Health Promotion Visits.....	302
Post Partum Visits.....	120
Physical Therapy Visits.....	139
Social Service Visits.....	22

TOTAL AGENCY VISITS	1990
---------------------	------

In September, due to the increased demands for nursing service, the Board approved 25 hours of nursing service a week for additional part-time personnel. Two nurses shared the work shifts, covering the community needs each morning. The nurse from Salisbury continued to come for Well-Child Conferences, immunization clinics, and vacation periods.

As our service needs increase in the community, so, too, do the financial demands. The city of Franklin appropriated \$7,000.00 toward the operational costs, and the town of Salisbury paid \$820.32. A Federal grant from the Division of Maternal & Child Health of \$2,450.00 supported the major costs of the Well-Child Conference. The Agency is constantly seeking monies from grants so that services will be available to meet the needs of the community. The Board members have given many hours in fund raising activities during the year. Without the participation and zeal of the Board, these many functions would not have been successful.

This year - 1973 - will present new and bigger tasks to accomplish. With the ever loyal support of the Board and staff, these challenges will be met.

Respectfully submitted,

Rose Marie Beever, President

PARKS & RECREATION DEPARTMENT

ANNUAL REPORT -- 1973

End of 1972

The year 1972 proved to be a productive year for the Franklin Recreation Department. In the area of programs the department initiated 34 full-time programs, established an evaluation system to improve existing programs and experienced a marked increase in volunteers and participants in Recreation Department activities. In addition to using the center to accommodate the increased volume of programs, the Department was granted the evening use of both Paul Smith and Rowell School gyms for specialized programs such as trampoline lessons, children's square dancing and male and female recreational sports programs. During the past year the maintenance staff also worked diligently to up-grade the appearance of the community park and beach areas, as well as preparing recommendations for improvements and construction of new facilities in the coming year.

Outlook for 1973

Programs:

Under the 1973 budget, a new position was approved by the City Council for the Recreation Department. On March 19th, Mr. Robert Groleau began his role as Program Director for the Department and his responsibilities will involve the organization and promotion of programs as well as assisting the Recreation Director in other administrative areas dealing with program and facility development. In addition, the Recreation Department staff will be seeking to establish a recruitment and training program for volunteers interested in playing either supervisory or specialized leadership roles.

## PARKS & RECREATION CONT'D

The forming of such a volunteer program would further enhance the opportunities for program balance and variety by utilizing their many talents. This will provide the Recreation Department staff additional time to solve problems in difficult program areas, to promote the activities and professional assistance of other organizations interested in youth and community development.

The success of the seasonal program flyers, distributed in specially scheduled school assemblies was outstanding and will continue. The Department, with the additional aid of a program slide presentation, will attempt to generate a growing awareness of the expanded services of the Franklin Recreation Department and how all citizens can support the movement for recreation for all ages.

### Maintenance:

In area of maintenance, three new facilities have projected completion dates for this year. At Griffin Beach, the road presently dividing the beach and picnic area is being rerouted to enable the expansion of the beach and picnic areas. Furthermore, new wharves, signs listing rules and regulations, a one meter diving board and lifeguard chairs will be added to the area this year.

At the Lagace Beach, the construction of a new bathhouse should get underway during the month of May. The project is jointly financed by City of Franklin, under the Capital Improvement Program and in-kind services, matched by the Bureau of Outdoor Recreation Funds. Included in the project will be the installation of a new septic system, concession area and improvements upon the present park facility.

1. The first part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business or organization. The author provides a detailed overview of the various methods used to collect and analyze data, highlighting the strengths and weaknesses of each approach.

2. The second part of the paper focuses on the application of these methods in a real-world context. The author describes a case study where the proposed methodology was used to solve a complex problem. The results of the study are presented, showing that the methodology was effective in identifying the root cause of the problem and providing a viable solution. The author also discusses the challenges faced during the implementation of the methodology and offers suggestions for overcoming them.

3. The third part of the paper discusses the future of the methodology. The author suggests that further research is needed to refine the methodology and to explore its potential applications in other areas. The author also discusses the importance of continuing education and training for those who use the methodology, as well as the need for ongoing communication and collaboration between researchers and practitioners.

4. The fourth part of the paper provides a conclusion and a summary of the key findings. The author reiterates the importance of accurate record-keeping and the effectiveness of the proposed methodology. The author also expresses optimism about the future of the methodology and its potential to make a significant contribution to the field.

5. The final part of the paper is a list of references. The author cites a number of key works in the field, including books, articles, and reports. The references are organized alphabetically by author's name.

PARKS & RECREATION CONT'D

In the fall of 1973, also under the Capital Improvement Program, there is a proposal for the construction of a new skating house in Odell Park. The structure will provide for the accommodations of a warming shelter, concession area, and rest room facilities in Odell Park on a year round basis. The repair and painting of the bleachers, playground equipment and supply buildings in Odell, Stone and Daniell Parks is slated for the maintenance staff this year.

Goals:

The continuing goal of the Franklin Recreation Department will be to provide programs that hold value to citizens of all ages while striving to expose and nourish the many by-products that recreation can give to a developing community. Furthermore, the Recreation Department will constantly be re-evaluating its programs and how it can assist other agencies to meet the recreational needs of our community.

Sincerely,

Roger W. Goodnow  
Director Parks & Recreation

## ADMINISTRATIVE HIGHLIGHTS--1972

1. Implemented at midyear a Retirement System covering all employees not previously covered.
2. Began construction on Pleasant St.-Prospect St. Water Extension Project.
3. Hired part-time Building Inspector.
4. Became a part of Winnebepesaukee River Basin Sewerage Project.
5. Reduced Tax Anticipation Notes carry-over to \$180,000.
6. Resurfaced approximately two miles of sidewalks.
7. Resurfaced approximately six miles of streets.
8. Extended the fire alarm system.
9. Continued Capital Improvements Program projects.
10. Installed 17 new water services throughout the City.
11. Renovated Lower City Hall and Police Headquarters.
12. Conducted survey to establish the need for Housing Authority.
13. Recognized the I.B.P.O. as sole bargaining unit for Police officers.
14. Received \$331,000. in Federal money toward the completion of the water project at Pleasant-Prospect Streets area.
15. Received continuation of a grant under the Emergency Employment Act.
16. Began work of relocating the Griffin Beach road.
17. Continued our updating of the municipal accounting system, thus exercising better control over expenditures.
18. "Advisory Commission on Revenues Needed" created, studied and recommended several procedures to increase municipal revenues. Several procedures adopted and now in effect.
19. Implemented many improvements at our parks with volunteer organizations.
20. Revenue Sharing Funds received during 1972 totaled approximately \$70,000.

## GOALS FOR 1973

1. Upgrade the sick leave policies and Personnel Rules & Regulations covering all City employees.
2. Establish a sanitary landfill in conjunction with surrounding town.
3. Continue and increase the program of removing, cleaning and testing each water meter, valve system & hydrant in the City.
4. Continue to extend the fire warning system.
5. Strive for a cooperative effort with surrounding Cities and Towns to assure economic growth of all units of government.
6. Undertake major replacement of improvement projects as outlined in the Capital Improvement Program.
7. Undertake a program to upgrade the sub-standard dwellings in the City.
8. Improve the appearance and esthetic quality of our business district and the City in general.
9. Complete our survey of all City-owned property to determine the land use of this property. (This now coupled with Tax Map efforts)
10. Continue to develop a complete inventory of community assets and industrial sites to encourage economic expansion in Franklin.
11. Continue the study of revamping and replacement of our traffic flow system.
12. Continue efforts for economy in government.
13. Seek out new sources of revenue and stabilize cost of the municipal government in an effort to keep the tax rate realistic. (Committee established March, 1972)
14. Replace sidewalks on Central Street from Daniell Bridge to vicinity of High School.
15. Complete relocation of road at Griffin Beach.
16. Establish sewer and water rates realistic to today's needs and tomorrow's demands.
17. Reconstruct and improve condition and traffic flow over Daniell Bridge.
18. Continue to remove diseased and dead trees and a replacement program to complement the removal of same.
19. Continue our program to convince the State of the need for additional routes in and out of the City of Franklin.

GOALS FOR 1973 (CONT'D)

20. Strive to show that community progress is not solely the responsibility of municipal government, but the responsibility of everyone concerned, working in conjunction with the municipal government.
21. Continue to extend our program to amortize the carry-over of our Tax Anticipation Notes.
22. Increase our effectiveness in the Dog Control Program.
23. The City of Franklin to participate and actively support the proposed U. S. Bicentennial Celebration in 1976.
24. Begin survey to eliminate infiltration in our sewer system and to disconnect illegal entries into our sewer system.
25. Complete our underground study of the existing water lines, valves and appurtenances.

CITY OF FRANKLIN, NEW HAMPSHIRE

O R D I N A N C E S

1972

AMENDMENT TO ORDINANCE RELATING TO THE PASSING OF ORDINANCES:

In the year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

Amend Section 2 of the ordinance relating to passage of ordinances by striking out all of said section and inserting the following:

Section 2. An ordinance when presented shall be read a first time for the information of the Councilmen. An ordinance may be amended or changed after the first reading. Before its final passage the ordinance must be read for a second time, but may be read by title only, by unanimous consent of the Council. No ordinance may be read for a second reading until the next regular Council meeting after it is first presented unless by unanimous consent by those present and voting.

Amend Section 3 of said ordinance by striking out the word "Municipal" before "Court" in the fourth line and inserting in place thereof the word "District", said ordinance to read as follows:

Section 3. All ordinances passed by the City Council shall be recorded without erasure or interlineation in a suitable Ordinance Book by the City Clerk and published in the Annual City Report. The City Clerk shall also furnish copies to the City Solicitor and the Judge of the District Court.

Amend Section 4 by striking out the words "Journal-Transcript" after the word "the" in the second line and inserting in place thereof the following: "a newspaper of general circulation within the area", said new section to read as follows:

Section 4. All ordinances of the City Council shall be published once in a newspaper of general circulation within the area, except a general revision.

This Amendment shall become effective on its passage.

Passed: March 6, 1972

AMENDMENT TO THE ORDINANCE RELATING TO THE PARKING OF MOTOR VEHICLES ON THE STREETS AND IN THE PARKING AREAS OF THE CITY:

In the year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

Amend Section 1 of the ordinance relating to the parking of motor vehicles

ORDINANCES - CON'T.

on the streets and in the parking areas of the City by striking out the word "April" in the twelfth line of said Section 1, said Section to read as follows:

Section 1. No person owning or operating any type of motor vehicle or other vehicle, or having in his or her charge any vehicle, shall cause or allow said vehicle to remain standing or parked within the limits of any street or any public parking area in the City, excepting a certain area in the Church Street parking lot, as designated by signs erected from time to time by the Police Department, permitting overnight parking in said posted area between the hours of 11:00 P.M. and 8:00 A.M., in such manner that said vehicle will interfere with or impede the plowing of snow from the surface of said street or parking area, between the hours of 11:00 P.M. and 6:00 A.M. during the months of January, February, March, November and December.

Passed: April 3, 1972

AMENDMENT TO AN ORDINANCE RELATING TO THE OPERATION OF PIN BALL MACHINES BY MINORS:

In the year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

Repeal the ordinance relating to the operation of pin ball machines by minors passed April 13, 1953 in its entirety.

Passed: June 5, 1972

AN ORDINANCE RELATING TO THE LICENSING OF PIN BALL MACHINES:

In the year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. The City Licensing Authority may grant upon such terms and conditions as it may deem reasonable and proper, a license to any person to keep one or more pin ball machine, so-called, or any mechanical game of skill or chance in the City of Franklin for which a fee is charged, or the operation of which requires the insertion of a coin or token in such machine or mechanical game, for hire, gain or reward, or in connection with his place of business. Such license may be revoked for just cause.

Section 2. All licenses granted under the preceding Section shall be valid from January 1 through December 31 of the year in which they were issued, unless sooner revoked. All licenses granted previous to the passage of this ordinance shall be valid until December 31, 1972.

Section 3. The annual license fee for each such pin ball machine or mechanical game of skill or chance shall be twenty-five dollars (25.00),

ORDINANCES - CON'T.

and said license shall be affixed in a prominent place on the machine so licensed.

Section 4. All licenses issued under this ordinance shall be recorded in the office of the City Clerk.

Section 5. Any person who shall keep any such pin ball machine or mechanical game of skill or chance for hire, gain or reward, or in connection with his place of business, without first having procured a license therefor shall be fined not more than one hundred dollars (\$100.00) for each pin ball machine or mechanical game of skill or chance so kept.

This ordinance shall become effective upon passage.  
The Ordinance Relating to the Licensing of Pin Ball Machines passed on October 5, 1953 is hereby repealed.

Passed: June 5, 1972

AN AMENDMENT TO AN ORDINANCE RELATING TO LICENSES FOR PUBLIC DANCES, ETC.:

In the year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

Amend Section 1 of an ordinance relating to licenses for public dances, etc., passed May 3, 1971, by deleting the words "or a carnival or circus" in the second line of said Section 1, so that said Section 1 will read as follows:

Section 1. No person, firm or corporation shall conduct public dancing in the City of Franklin unless a license therefor shall first be obtained from the Licensing Authority of the City of Franklin (City Clerk's Office).

Amend Section 2 of said ordinance by deleting the words "carnival or circus" in the second line of said Section 2, so that said Section 2 will read as follows:

Section 2. Said license shall be obtained for each public dance, within seventy-two hours (72) prior to said dance and shall be issued upon the payment of one dollar (\$1.00) and whatever sums are necessary for the payment of whatever police officers whose services are required in accordance with Chapter 105:9 of the New Hampshire Revised Statutes Annotated.

This amendment shall become effective upon passage.

Passed: June 5, 1972

AN ORDINANCE RELATING TO LICENSES FOR CARNIVALS, CIRCUSES, FAIRS, AMUSEMENT RIDES, ANIMAL SHOWS, ETC.:

In the year of Our Lord one thousand nine hundred and seventy-two.

ORDINANCES - CON'T.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No person, firm or corporation shall conduct a carnival, circus, fair, amusement rides, animal show or other public outdoor entertainment in the City of Franklin unless a license therefor shall first be obtained from the Licensing Authority of the City of Franklin (City Clerk's Office).

Section 2. Said license shall be obtained for each day that said carnival, circus, fair, amusement rides, animal show or other public outdoor entertainment is to be held, within seventy-two (72) hours prior to said carnival or other event and shall be issued upon the payment of Twenty-Five Dollars (\$25.00) for each day said event shall be held, and whatever sums are necessary for the payment of whatever police officers and/or firemen whose services are required in accordance with Chapter 105:9 of the New Hampshire Revised Statutes Annotated.

Section 3. The license fee can be waived whenever said event is conducted without profit, such as for non-profit, charitable and religious organizations.

Section 4. Said license may be denied or revoked for cause by the Licensing Authority or in the case of emergency affecting the lives, safety or welfare of the public, said license may be denied or revoked by the Chief of Police or his authorized representative.

Section 5. Any person, firm or corporation convicted of violating any section of this ordinance shall be fined not more than One Hundred Dollars (\$100.00).

Section 6. This ordinance shall be effective upon passage.

Passed: June 5, 1972

AN AMENDMENT TO THE ORDINANCE ON STOP INTERSECTIONS:

In the year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

Amend the ordinance establishing stop intersections passed on December 15, 1958 by adding to the list of street intersections in Section 1 thereof the following:

On the West side of Sanborn Street at the intersection of Central Street for South traffic on Sanborn Street.

On the west side of Maple Street at the intersection of Central Street for South traffic on Maple Street.

On the West side of Pearl Street at the intersection of Central Street for South traffic on Pearl Street.

ORDINANCES - CON'T.

On the West side of Chestnut Street at the intersection of Central Street for South traffic on Chestnut Street.

On the West side of Charles Street at the intersection of Central Street for South traffic on Charles Street.

On the West side of Clark Street at the intersection of Central Street for South traffic on Clark Street.

On the West side of Kendall Street at the intersection of Central Street for South traffic on Kendall Street.

On the West side of Dearborn Street at the intersection of Central Street for South traffic on Dearborn Street.

On the East side of View Street at the intersection of School Street for North traffic on View Street.

On the West side of Spring Street at the intersection of School Street for South traffic on Spring Street.

On the South side of Proctor Street at the intersection of Pearl Street for East traffic on Proctor Street.

On the East side of Pearl Place at the intersection of Central Street for North traffic on Pearl Place.

On the East side of Green Street at the intersection of Central Street for North Traffic on Green Street.

On the East side of Cross Road at the intersection of Central Street for North traffic on Cross Road.

On the South side of Proctor Street at the intersection of Kendall Street for East traffic on Proctor Street.

On the East side of Pearl Street at the intersection of Proctor Street for North traffic on Pearl Street.

On the South side of Rowell Drive at the intersection of Sanborn Street for East traffic on Rowell Drive.

On the East side of Kendall Street at the intersection of Sanborn Street for North traffic on Kendall Street.

On the East side of Highland Avenue at the intersection of Pine Street for North traffic on Highland Avenue.

On the East side of Highland Avenue at the intersection of Orchard Street for North traffic on Highland Avenue.

On the West side of Highland Avenue at the intersection of Orchard Street for South traffic on Highland Avenue.

ORDINANCES - CON'T.

On the East side of Elm Street at the intersection of Oak Street for North traffic on Elm Street.

On the East side of Elm Street at the intersection of Pleasant Street for North traffic on Elm Street.

On the East side of Myrtle Street at the intersection of Pine Street for North traffic on Myrtle Street.

On the North side of West High Street at the intersection of River Street for West traffic on West High Street.

On the South side of West High Street at the intersection of Franklin Street for East traffic on West High Street.

On the East side of Beaton Street at the intersection of Rowell Drive for North traffic on Beaton Street.

On the North side of Rowell Drive at the intersection of Freedom Drive for West traffic on Rowell Drive.

On the North side of West Bow Street at the intersection of Cheney Street for West traffic on West Bow Street.

On the South side of Daniell Webster Drive at the intersection of North Main Street for East traffic on Daniell Webster Drive.

On the North side of Daniell Webster Drive at the intersection of Lawndale Street for West traffic on Daniell Webster Drive.

At the Ward I traffic circle for West traffic on Central Street at the intersection of Main Street for traffic bound South on Main Street.

Amend the ordinance establishing stop intersections passed on December 15, 1958 by deleting from the list of street intersections in Section 1 thereof the following:

On the West side of Smith Street at the intersection of Central Street for South traffic on Smith Street.

On the North side of Church Street at the intersection of Central Street for West traffic on Church Street.

Said standard STOP sign to be erected at the said intersections shall conform to the ordinance pertaining to stop intersections.

This ordinance to become effective upon passage.

Passed: June 5, 1972

On the West side of Highland Avenue at the intersection of Pine Street for South traffic on Highland Avenue.

[illegible]

## ORDINANCES - CONT'D

### ORDINANCE RELATING TO THE RESTRAINING OF DOGS

In the year of Our Lord one thousand nine hundred and seventy-two:

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. Definition of terms as used in this ordinance, unless the context otherwise indicates.

- A. "Dog" shall be intended to mean both male and female.
- B. "Owner" shall be intended to mean any person, or persons, firm, association or corporation, keeping, harboring, or owning a dog.
- C. "Running at large" shall be intended to mean off the premises, residence, or property of the owner, and not under the control of the owner or some responsible individual whether by leash, cord, chain, or otherwise.

Section 2. It shall be unlawful to permit any dog to run at large within the City of Franklin.

Section 3. Any dog found running at large may be restrained or impounded by the Dog Officer or by the Franklin Police Department. Any animal so impounded may be confined in a suitable shelter for a reasonable period of time. Impounded dogs not claimed by the owners within seventy-two hours, after notice to the owner, if known, may be humanely disposed of by the Dog Officer of the City of Franklin or any member of the Franklin Police Department. Dogs impounded not wearing a valid rabies vaccination tag must be impounded for a period of ten (10) days in accordance with R.S.A. 442-A:8 (Rabies Control Act) before disposal.

Section 4. Any owner or individual claiming a dog impounded shall pay to the City of Franklin a fee of two (\$2.00) dollars plus, in addition, one dollar and fifty cents (\$1.50) for each day the dog has been impounded. No dog shall be released until the above fees are paid.

Section 5. The enforcement of this ordinance shall be the responsibility of the Police Department of the City of Franklin.

Section 6. Any owner or individual in violation of this ordinance shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not more than ten (\$10.00) dollars for the first offense and not more than fifty (\$50.00) dollars for each subsequent offense.

Section 7. This ordinance shall take effect thirty (30) days after its passage.

Passed: July 3, 1972

ORDINANCES CONT'D

AMENDMENT TO AN ORDINANCE TO PROHIBIT THE PLACING OF SNOW AND ICE UPON CITY STREETS, HIGHWAYS AND SIDEWALKS:

In the Year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

Amend an Ordinance prohibiting the placing of snow and ice upon City Streets and Highways, Passed on December 3, 1956, by inserting in Section 1 of said Ordinance, the words "or sidewalk" after the words "or highway" in the third line of said Section 1, so that said Section 1 will read as follows:

Section 1. No person shall put or place or cause to be put or placed any snow or ice upon the surface of the travelled portion of any street or highway or sidewalk within the City of Franklin which the City of Franklin has the duty to maintain.

Passed: November 6, 1972

AN AMENDMENT TO THE ORDINANCE ON STOP INTERSECTIONS:

In the year of our Lord one thousand nine hundred and seventy-two.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF FRANKLIN AS FOLLOWS:

On the East side of Clark Street at the intersection of Proctor Street for North traffic on Clark Street.

On the West side of Clark Street at the intersection of Proctor Street for South traffic on Clark Street.

On the South side of Adams Street at the intersection of Clark Street for East traffic on Adams Street.

On the North side of Adams Street at the intersection of Clark Street for West traffic on Adams Street.

On the South side of Adams Street at the intersection of Kendall Street for East traffic on Adams Street.

On the North side of Adams Street at the intersection of Kendall Street for West traffic on Adams Street.

On the South side of Robin Street at the intersection of Lake Ave. for East traffic on Robin Street.

On the South side of Oriole Street at the intersection of Lake Ave. for East traffic on Oriole Street.

On the South side of Lark Street at the intersection of Lake Ave. for East traffic on Lark Street.

ORDINANCES CONT'D

Said standard STOP SIGN to be erected at the said intersections shall conform to the ordinance pertaining to stop intersections.

This ordinance to become effective upon passage.

Passed: December 4, 1972

CITY OF FRANKLIN NEW HAMPSHIRE

ZONING ORDINANCE

1972

AN AMENDMENT TO THE ZONING ORDINANCE:

In the year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

Amend the Franklin Zoning Ordinance, Section 510, Permitted Uses, by the insertion of "#11 -- Single Family Dwellings" in the "B-1" BUSINESS DISTRICT, Special Exceptions.

This amendment to take effect upon its passage.

Passed: June 26, 1972

In the year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

AMEND THE FRANKLIN ZONING MAP AS FOLLOWS:

Move the Northern boundary of the "B-1" zone, situated in the Northeastern section of the City of Franklin, six hundred (600) feet in a northerly direction where said line intersects the Franklin-Tilton line.

Said line to run from said point at the Franklin-Tilton line in a westerly direction until it intersects the point presently made by the intersection of the "B-1" zone and the "R-2" zone.

Passed: July 3, 1972

In the year of Our Lord one thousand nine hundred and seventy-two.

Be it ordained by the City Council of the City of Franklin as follows:

AMEND THE ZONING ORDINANCE OF THE CITY OF FRANKLIN, N.H. SECTION 703, Permits, by inserting the following paragraph:

Section 703, a-2-Sing Permit Fees: Fifty cents (.50) per square foot of surface area--minimum fee two dollars (\$2.00), temporary political signs exempted. Real Estate Agencies may obtain an annual permit for a fee of twelve dollars (\$12.00).

Delete from Section 703-Permits: b, Use Permit, Paragraph 5. "Signs (refer to Section 607)" so that said Section 703: b-A shall read: "b. A Use Permit (no charge) shall be required for any of the following:

1. Establishment of a professional office in a dwelling as permitted by this Ordinance.

ZONING ORDINANCE CONT'D

2. Change in the non-conforming use of buildings or land.
3. Occupancy of any vacant land for any purpose except the raising of crops.
4. Gravel Pit operations.
5. Demolition.

This amendment shall take effect upon its passage.

Passed: October 2, 1972

In the year of Our Lord One Thousand Nine Hundred and Seventy-Two.

Be it ordained by the City Council of the City of Franklin as follows:

AMEND THE FRANKLIN ZONING MAP AS FOLLOWS:

Extend and increase the B-1 (Business District) zone, Beginning at the center line of North Main Street at the intersection of Nelson Street and North Main Street, thence Southerly along the center line of North Main Street to the existing B-1 (Business District) line, then proceeding along said existing B-1 line in an easterly direction to the west bank of the Pemigewasset River; thence turning and running in a general northerly direction along the west bank of the Pemigewasset River to a point perpendicular with the northeast corner of land of F. & W. Sales, Inc., formerly of Franklin Developments, Inc., thence in a westerly direction in a straight line along land of the City of Franklin; thence continuing in a straight line along land of the F. & W. Sales, inc. and land of the City of Franklin and continuing a straight line to the existing B-1 (Business District) line, said B-1 (Business District) line being 200 feet from the center line of North Main Street.

This amendment shall take effect upon its passage.

Recommended Passage: November 11, 1972

In the year of Our Lord One Thousand Nine Hundred and Seventy-Two.

Be it ordained by the City Council of the City of Franklin as follows:

AMEND THE ZONING ORDINANCE OF THE CITY OF FRANKLIN, SECTION 301 - 14 LIGHT MANUFACTURING, BY INSERTING AFTER THE WORDS PHARMACEUTICAL GOODS THE FOLLOWING "LEATHER GOODS AND THE PROCESSING OF HIDES;" SO THAT SAID SECTION SHALL READ AS FOLLOWS:

14. Light Manufacturing: The processing and fabrication of certain materials and products where no process involved will produce noise, vibration, air pollution, fire hazard or noxious emission which will disturb or endanger neighboring properties. Light Manufacturing includes the production of the following goods: Home appliances; electrical instruments; office machines; precision instruments; electronic devices; timepieces; jewelry; optical goods; musical instruments; novelties; wood products; printed materials; lithographic plates; type composition; machine tools, dies and gauges; ceramics; apparel; lightweight non-ferrous metal castings;

ZONING ORDINANCE CONT'D

Film processing light sheet metal products; plastic goods; pharmaceutical goods, leather goods and the processing of hides; and food products but not animal slaughtering, curing nor rendering of fats.

This amendment shall take effect upon its passage.

Recommended passage: November 11, 1972

SECTION "B"  
SCHOOLS

ANNUAL REPORT OF SUPERINTENDENT OF SCHOOLS  
1972

Due to the very short time that has elapsed from the time I assumed the Superintendency of Supervisory Union #18 to the close of the fiscal year, this annual report will of necessity be general in nature.

Franklin has been fortunate in having a relatively stable staff which is competently serving the educational needs of the children in the city.

The success of the staff is limited by some of the existing space and staff limitations in the junior and senior high areas. A committee to study the building needs of the Franklin Junior-Senior High School will be formed in the early months of 1973. As was indicated in last year's report, the lack of space in the Industrial Arts and Home Economics areas has hindered programs in these areas. These programs are very important to the vocationally-oriented pupil and to the pupil not planning to go on into a post-secondary educational or training program. Other areas of the high school are also inadequate and overcrowded and will need the attention of this Committee.

In the elementary schools we will need to continually strive to achieve the minimum standards required and recommended by the state. Although some people react negatively to state-imposed or suggested standards, we must realize that these minimum standards were identified as necessary by the professional staffs, parents and other individuals or groups interested in the education of children from school districts in New Hampshire, as well as by the professional staff of your State Department of Education. The standards are and should be considered as MINIMUM. The people of the city must decide as to whether or not they wish to provide at least a minimum education for their children.

Another area of concern to Franklin is the status of the Dual Enrollment Program. During 1972, the Franklin School District and St. Mary's School continued to participate in an outstanding Dual Enrollment Program. Financial support from the State of New Hampshire for the original program has ceased and the total cost for the city's support of this program is reflected in the district's operating budget for fiscal 1973.

The constitutionality of dual enrollment in the state is being argued in the courts. The future of dual enrollment in New Hampshire and in Franklin is dependent on the decision of the courts. Until this decision is reached, the continued operation of the local program depends on the support of the parish, the New Hampshire Diocese and the City.

Enrollments in Franklin continue to rise steadily. Following are September enrollments starting in 1959:

1959	1136	1964	1436	1969	1580
1960	1209	1965	1443	1970	1755
1961	1276	1966	1462	1971	1796 *
1962	1294	1967	1451	1972	1823 **
1963	1415	1968	1544		

\* Includes 127 pupils in Dual Enrollment Program

\*\* Includes 131 pupils in Dual Enrollment Program

The staff is continuing its evaluation of the instructional program and is making a sincere effort to improving the total educational experience for the children of Franklin.

I look forward to working with the staff and you - the School Board, the parents, the City Council and the citizens of Franklin - in making learning one of the happiest and most valuable experiences in the lives of our children.

Fokion Lafionatis, Superintendent of Schools

1. The first of these is the fact that the system is not self-sufficient. It requires a constant input of resources from the outside world, which is a major source of its weakness.

2. The second is the fact that the system is not flexible. It is rigid and inflexible, and this makes it difficult to adapt to changing circumstances.

3. The third is the fact that the system is not democratic. It is controlled by a small group of people, and this makes it difficult for the general public to have any say in its operation. This is a major source of its weakness, as it means that the system is not accountable to the people it is supposed to serve.

4. The fourth is the fact that the system is not transparent. It is a closed system, and this makes it difficult for the public to see what is going on inside. This is a major source of its weakness, as it means that the system is not open to scrutiny and criticism.

5. The fifth is the fact that the system is not efficient. It is a wasteful system, and this makes it difficult to justify its existence. This is a major source of its weakness, as it means that the system is not cost-effective.

6. The sixth is the fact that the system is not sustainable. It is a system that cannot last, and this makes it difficult to see its future. This is a major source of its weakness, as it means that the system is not viable in the long term.

7. The seventh is the fact that the system is not fair. It is a system that is biased and unfair, and this makes it difficult for the public to accept it. This is a major source of its weakness, as it means that the system is not just.

8. The eighth is the fact that the system is not innovative. It is a system that is stagnant and uncreative, and this makes it difficult to see how it can improve. This is a major source of its weakness, as it means that the system is not dynamic.

9. The ninth is the fact that the system is not resilient. It is a system that is fragile and easily broken, and this makes it difficult to see how it can survive. This is a major source of its weakness, as it means that the system is not robust.

10. The tenth is the fact that the system is not inclusive. It is a system that excludes large sections of the population, and this makes it difficult for the public to see its value. This is a major source of its weakness, as it means that the system is not representative.

11. The eleventh is the fact that the system is not effective. It is a system that does not achieve its goals, and this makes it difficult to see its purpose. This is a major source of its weakness, as it means that the system is not successful.

## REPORT OF SCHOOL NURSE

1972

School health services include a variety of functions designed to assist in protecting or improving student health and to secure information needed to assist in adapting school programs to the physical and mental abilities and needs of the individual student. The home, the school and the community are jointly responsible for conserving the health and welfare of all school children. As the child matures we stimulate and encourage the student to assume this responsibility. This responsibility can be fulfilled only with the interest, understanding and cooperation of parents and teachers. The following report of the major health activities in the Franklin Schools during the past year points out the cooperative role of the school, the home and the community in conserving and promoting the total health of the Franklin School children.

Thirty-two hundred and ninety-seven inspections were performed on the pupils. Over eleven hundred were head inspections only; the other two thousand included height, weight, posture observation, condition of hair and general condition of mouth and teeth. Obvious irregularities were referred to parents with recommendations for follow-up by family physician and dentist immediately. Others were kept under observation by teacher and nurse. If the condition continued, these pupils were eventually referred. This procedure serves as a basis for instruction relating to the factors that influence growth and maturation and furnishes motivation for improvement of health practices.

Our school vision screening involves observation to detect obvious eye disease and testing for visual acuity through the use of the Titmus School Vision Tester, which is a stereoscopic instrument for testing visual acuity. Because most learning is based upon visual experience, we feel it is of prime importance to screen every pupil annually. Two thousand four hundred and thirteen screenings were referred to the family ophthalmologist or optometrist for a complete and extensive eye examination.

Evaluation of hearing is an important aspect of school nursing services. It identifies the pupils with possible hearing problems who are in need of a confirmatory diagnosis and helps those with hearing problems obtain the help they need. Each child receives a complete audiometric screening. Two thousand three hundred and eleven audiometric screenings were done on our pupils. Twenty-six of our students were referred to the family physician or E.N.T. specialist. Children who exhibit constant hearing losses are referred and parents are encouraged to obtain further diagnostic evaluation and treatment.

Dental caries are the most frequent problem in school-age children. Neglect of dental health can lead to further health problems. Our school dental programs have made a positive contribution toward the improvement of the dental health of our students. The Dental Clinic which provides for the cleaning and application of fluoride for any and all our students is in its seventh year of operation. Over four hundred and seventy-five pupils participated. The materials and equipment are provided by the New Hampshire Department of Dental Health.

Protection from illness can be provided through immunization. Immunizations should be completed during the first years of a child's life. However, in many cases this is not the situation. In connection with the Visiting Nurses Association we held four clinics during the school year. One hundred eighteen immunizations were given to school children at this time. Offered at these clinics were Smallpox vaccination, Diphtheria Toxoid, Toxoid Boosters, Polio Drinks, Measles Vaccine and Rubella Vaccine.

In keeping with past efforts to protect our personnel from illnesses, flu shots were offered and 55 of our teachers received the immunization. Our sincere thanks go to Dr. Winnifred Chase for giving of her time to accommodate our staff.

Tuberculosis is still a disease we must be aware of and because of its insidious nature, early detection is of primary importance. A sterneedle test for T.B. was done on all personnel including administrators, teachers, aides, bus drivers, kitchen help, and janitors. Also, all the children in the first grade area were checked. Three hundred eighty-two sterneedle tests were given. There were 14 chest x-rays done on positive reactors who cannot participate in the sterneedle testing. Fourteen Mantoux tests, which is a more accurate test, were done as follow-up on positive reactors by the State T.B. Nurse.

The New Hampshire Crippled Children's Society sponsored by the New Hampshire Board of Health continues to be an excellent referral for all children who have severe orthopedic, heart or convulsive disorders. There were 8 children attending the convulsive disorder clinic, 18 children attending the orthopedic clinic, and 2 children the heart clinic. These children received excellent care from specialists in each field. This is a very worthwhile program sponsored by the New Hampshire Board of Health. All children with special problems can be served by these specialists.

In order to maintain and protect the health of our Varsity and Junior Varsity athletes, each athlete must have a complete physical examination before he or she is allowed to actively participate. Dr. Morin, our Athletic Physician, examined over two hundred forty-eight prospective candidates. All candidates displaying a deviation were referred to their family physician for correction prior to participation. This service gives these athletes maximum protection needed by the active athlete.

Children who become sick or are injured while in school are given emergency first aid and immediately referred to their parents when the situation requires it. It is the parent's responsibility to seek further treatment. This year there were 1,647 first aids administered - the greatest majority were minor in nature and the student was treated and returned to class.

There are many situations when a house visit is much more effective than a note or a telephone call. Observation of the home environment is most helpful in determining a course of action in many situations. This year 281 home visits were made.

Pre-school registration was held in April this year. Each child was weighed, measured, and a vision and hearing screening was done. An accurate health history and immunization record was stressed. This was done to insure the implementation of new immunization requirements which were passed into law by the State legislators and became effective in September 1971. This law also requires that each child entering a school in New Hampshire for the first time have a physical examination and a T.B. test. Parents were encouraged to maintain their family-physician relationship, but for those who could not assume the cost, our local school board voted funds to be used to defray the cost of physical examinations to be done by local physicians at specified clinics. Appointments were made with the parents to bring their child to these clinics which were held in May. At the clinic the child was given a complete physical examination which included a urinalysis and a T.B. test. Parents were urged to bring the child to the immunization clinics to complete the immunization requirements. At these clinics, 92 pre-schoolers were registered.

Mrs. Gilchrist and Mrs. LaRoche instructed 4 classes of the Red Cross Multimedia Standard First Aid Course. More and more emphasis is being placed on training people who would be involved in caring for sick or injured persons with accepted first aid procedures. In many instances this could be the difference between further injury, or life and death. There were 80 persons who took the course. Included in this number were policemen, firemen, rescue squad personnel, ambulance drivers, ski patrollers, teachers, teacher aides, and interested citizens. It was a worthwhile and rewarding experience for the instructors. Mrs. Gilchrist also instructed a class of 22 first aiders in Red Cross Advanced First Aid and 17 in the Red Cross Advanced Refresher Course.

In order to improve our understanding and better help the school child who has been classified as having a learning disability, Mrs. Gilchrist and Mrs. LaRoche took the course entitled Remediation of Children With Learning Disabilities.

We also attended a two-day workshop at Eastern Slopes Inn in North Conway in May. The theme of the workshop was Improving Communications. This was a most informative and helpful workshop.

Over the years the work of nurses in school health programs has been changing. Teachers and others in education have become more involved in health problems. This widening of interests has resulted in an increasing emphasis on the development of the whole child. There has been an increasing awareness of the relationship between sound mental and physical health to school achievement. As health specialists we continue to recommend and emphasize the importance of developing a formal cumulative health education curriculum commencing at the elementary level and continuing through high school.

We wish to take this opportunity to recognize and acknowledge the administration, teachers, physicians, dentists, parents and the pupils themselves for their cooperation and contributions to the Franklin School Health Services. Their attitudes enabled us to present a comprehensive program for all our students.

Respectfully submitted,

Cecile LaRoche, R.N.  
Martha Gilchrist, R.N.

## JULY

- 2 Monday-----Council Meeting.
- 4 Wednesday-----Fourth of July.
- 5 Thursday-----Wednesday's rubbish collection today.
- 9 Monday-----Opening day of swimming instruction. 1st instruction session.
- 11 Wednesday-----Zoning Board of Adjustment meeting.
- 24 Tuesday-----Planing Board meeting.
- 30 Monday-----2nd instruction session of swimming lessons.

## AUGUST

- 1-3 -----Obtain tax rate from Tax Commission -- Tax Warrant to be committed to Tax Collector within 30 days.
- 6 Monday-----Council Meeting.
- 8 Wednesday-----Zoning Board of Adjustment meeting.
- 24 Friday-----Swimming instructions end.
- 28 Tuesday-----Planning Board meeting.

## SEPTEMBER

- 3 Monday-----Labor Day.
- 4 Tuesday-----Beaches close.
- 5 Wednesday-----Council Meeting. Appointments made to Highway Safety & Conservation Commissions.
- 12 Wednesday-----Zoning Board of Adjustment meeting.
- 25 Tuesday-----Planning Board meeting.

## OCTOBER

- 1 Monday-----Council Meeting.
- 8 Monday-----Columbus Day.
- 9 Tuesday-----Monday's rubbish collection today.
- 10 Wednesday-----Zoning Board of Adjustment meeting.
- 15 Monday-----Fourth quarterly payment of Resident Taxes.
- 22 Monday-----Veterans Day. (contingent upon legislation)
- 23 Tuesday-----Monday's rubbish collection today.  
Planning Board meeting.
- 23-26 -----Fall rubbish pickup.  
Pickup park benches & trash barrels.
- 31 Wednesday-----Halloween Parade & Party.

## NOVEMBER

- 5 Monday-----Council Meeting.  
All-night parking ban begins.  
Read water meters.
- 14 Wednesday-----Zoning Board of Adjustment meeting.
- 22 Thursday-----Thanksgiving Day.
- 23 Friday-----Thursday's rubbish collection today.
- 27 Tuesday-----Planning Board meeting.

[illegible]

## DECEMBER

1 Saturday-----Last day to submit proposed budget to Council.  
3 Monday-----Council Meeting.  
Last day to pay County Tax.  
12 Wednesday-----Zoning Board of Adjustment meeting.  
25 Tuesday-----Christmas Day.  
26 Wednesday-----Tuesday's rubbish pickup today.  
28 Friday-----Close City books today.  
31 Monday-----Pinball machines licenses expire.  
Sunday permits expire.

## JANUARY - 1974

1 Tuesday-----New Year's Day.  
2 Wednesday-----Tuesday's rubbish collection today.  
7 Monday-----Inaugural and Council Meeting.  
9 Wednesday-----Zoning Board of Adjustment meeting.  
7-11 -----Christmas tree pickup.  
15 Tuesday-----First quarterly payment of Resident Taxes.  
22 Tuesday-----Planning Board meeting.  
28 Monday-----Last day for budget to be presented to Council  
for action.

## FEBRUARY

4 Monday-----Council Meeting.  
13 Wednesday-----Zoning Board of Adjustment meeting.  
18 Monday-----Washington's Birthday.  
19 Tuesday-----Monday's rubbish collection today.  
26 Tuesday-----Planning Board meeting.
